

Media Statement

For Immediate Release

The National Lotteries Commission has once again achieved a clean audit during the 2018/19 financial year. The organization also achieved 100% performance on its targets during the year under review, this is an indication that the NLC's governance and control processes is adequate to prevent any irregularities.

The NLC wishes to also indicate that consistent with the previous four years the NLC did not incur any irregular and fruitless expenditure.

This performance has gone a long way in improving the lives of South Africans particularly those who are poor and in the rural areas. We take pride in the pro-poor policies that we are implementing in the distribution of our grants to alleviate poverty and inequality. Most of our grants benefited women, people with disabilities and the elderly.

We wish to thank our Board, The Minister, The Commissioner Thabang Mampane and her Executive team, staff of the NLC and our stakeholders who worked with us during this year, this performance is for all of us to celebrate.

The NLC wishes all the stakeholder another successful year ahead.

Ends.
