1. Audit outcomes and the level of service delivery within local government municipalities in South Africa
2. Assessing Gender Inequality in Food Security among Small-holder Farm Households in urban and rural South Africa
3. Violence against nurses in the southern region of Malawi
4. Antibodies and tuberculosis
5. Highly sensitive sequence specific qPCR detection of Mycobacterium tuberculosis complex in respiratory specimens
6. Factors associated with adverse events after emergency laparotomy in Cape Town, South Africa: identifying opportunities for quality improvement
7. Xpert human papillomavirus test is a promising cervical cancer screening test for HIV-seropositive women
8. Educational workshops with graduates of the University of Cape Town Karl Storz Head and Neck Surgery Fellowship Program: a model for collaboration in outreach to developing countries
9. Institutions, organisations and the urban built environment: Facilitative interaction as a developmental mechanism in extra-legal settlements in Zambia
10. Lost in Translation: Language, Terminology, and Understanding of Penile–Anal Intercourse in an HIV Prevention Trial in South Africa, Uganda, and Zimbabwe
11. Unearthing white academics' experience of teaching in higher education in South Africa
12. Modelling food web structure using an end-to-end approach in the coastal ecosystem of the Gulf of Gabes (Tunisia)
13. Rural electrification implementation strategies through microgrid approach in South African context
14. The Victorian Roots of the Current ANC Leadership Crisis
15. Land registration effectiveness in a state-subsidised housing project in Mbekweni, South Africa
16. Caring for Adults with Intellectual Disability: The Perspectives of Family Carers in South Africa
17. Impacts of terrestrial habitat transformation on temporary wetland invertebrates in a sclerophyllous Sand fynbos landscape
18. Lack of human-assisted dispersal means *Pueraria montana* var. *lobata* (kudzu vine) could still be eradicated from South Africa
19. The effects of caregiver and household HIV on child development: a community-based longitudinal study of young children
20. International Defensive Medicine in Neurosurgery: Comparison of Canada, South Africa, and the United States
21. Assessing the quality of routine data for the prevention of mother-to-child transmission of HIV: An analytical observational study in two health districts with high HIV prevalence in South Africa
22. Isotopic niche structure of a mammalian herbivore assemblage from a West African savanna: Body mass and seasonality effect
23. Egg sensitization, allergy and component patterns in African children with atopic dermatitis
24. What role can gender-transformative programming for men play in increasing men's HIV testing and engagement in HIV care and treatment in South Africa?
25. The continuum of fetal alcohol spectrum disorders in a community in South Africa: Prevalence and characteristics in a fifth sample
26. Turkish and Japanese Mycobacterium tuberculosis sublineages share a remote common ancestor
27. Respiratory microbes present in the nasopharynx of children hospitalised with suspected pulmonary tuberculosis in Cape Town, South Africa

28. Severe adverse events during second-line tuberculosis treatment in the context of high HIV Co-infection in South Africa: A retrospective cohort study
29. Perceptions related to breastfeeding and the early introduction of complementary foods amongst migrants in Cape Town, South Africa
30. Constitutional Design in Africa: Is Mix and Match OK?
31. The Relationship Between Social Support, HIV Serostatus, and Perceived Likelihood of Being HIV Positive Among Self-Settled Female, Foreign Migrants in Cape Town, South Africa
32. They don't understand that we also exist: South African participants in competitive disability sport and the politics of identity
33. Prevalence of rheumatic heart disease among school children in Ethiopia: A multisite echocardiography-based screening
34. The causes, treatment, and outcome of pulmonary hypertension in Africa: Insights from the Pan African Pulmonary Hypertension Cohort (PAPUCO) Registry
35. Zambia at 50: The persisting challenges of economic structural transformation
36. Design, Synthesis, and Evaluation of Novel Hybrid Efflux Pump Inhibitors for Use against Mycobacterium tuberculosis
37. Early evolution of HLA-associated escape mutations in variable Gag proteins predicts CD4+ decline in HIV-1 subtype C infected women
38. Tenofovir exposure in utero and linear growth in HIV exposed, uninfected infants: a prospective study
39. Abstracts reporting of HIV/AIDS randomized controlled trials in general medicine and infectious diseases journals: Completeness to date and improvement in the quality since CONSORT extension for abstracts
40. A new member of the greater double-collared sunbird complex (Passeriformes: Nectariniidae) from the Eastern Arc Mountains of Africa
41. 'Good citizens and gentlemen': Gender, Reputation and Identity at the South African College, 1880–1910
42. What role for local organisations in climate change adaptation? Insights from South Africa
43. What matters more for South African households' debt repayment difficulties?
44. QuantiFERON conversion following tuberculin administration is common in HIV infection and relates to baseline response
45. Social polarization in global cities: measuring changes in earnings and occupational inequality
46. Need for and Readiness to Implement a Performance Measurement System for South Africa's Substance Abuse Treatment Services
47. A Functional Role for Antibodies in Tuberculosis
48. Seasonal rainfall at long-term migratory staging sites is associated with altered carry-over effects in a Palearctic-African migratory bird
49. Stress among South African construction professionals: a job demand-control-support survey
50. Linezolid in the treatment of drug-resistant tuberculosis: the challenge of its narrow therapeutic index
51. The implications of maternal grandmother coresidence and involvement for adolescent adjustment in South Africa
52. Strengthening the knowledge–policy interface through co-production of a climate adaptation plan: leveraging opportunities in Bergrivier Municipality, South Africa
53. Urban governance and urban food systems in Africa: Examining the linkages
54. The use of ecological, fishing and environmental indicators in support of decision making in southern Benguela fisheries
55. A Xhosa language translation of the CORE-OM using South African university student samples
56. The seasonal cycle as a mode to diagnose biases in modelled CO<sub>2</sub> fluxes in the Southern Ocean
57. Cancer research in South African academic and research institutions
58. Earliest Evidence for the Ivory Trade in Southern Africa: Isotopic and ZooMS Analysis of Seventh–Tenth Century ad Ivory from KwaZulu-Natal

59. Characterisation of *Clostridium difficile* strains isolated from Groote Schuur Hospital, Cape Town, South Africa
60. Changes in Body Fat Distribution on Dual-Energy X-Ray Absorptiometry in Black South Africans Starting First-Line Antiretroviral Therapy
61. Multi-stage kimberlite evolution tracked in zoned olivine from the Benfontein sill, South Africa
62. Determining protein biomarkers for DLBCL using FFPE tissues from HIV negative and HIV positive patients
63. Cardio-thoracic ratio is stable, reproducible and has potential as a screening tool for HIV-1 related cardiac disorders in resource poor settings
64. Standard of treatment and outcomes of adults with lupus nephritis in Africa: A systematic review
65. Self-reported side effects and adherence to antiretroviral therapy in HIV-infected pregnant women under option B+: A prospective study
66. Repeat photography confirms alarming decline in South African cycads
67. Drivers of bird species richness within moist high-altitude grasslands in Eastern South Africa
68. Hemoglobin glutamer-250 (bovine) in South Africa: consensus usage guidelines from clinician experts who have treated patients
69. The incidence and histo-pathological characteristics of colorectal cancer in a population based cancer registry in Zimbabwe
70. Rolling out efavirenz for HIV precision medicine in Africa: Are we ready for pharmacovigilance and tackling neuropsychiatric adverse effects?
71. Antenatal depression and adversity in urban South Africa
72. Genetics of sickle cell-associated cardiovascular disease: An expert review with lessons learned in Africa
73. Progress and Perspectives on HIV-1 microbicide development
74. They just come, pick and go. the acceptability of integrated medication adherence clubs for HIV and Non Communicable Disease (NCD) Patients in Kibera, Kenya
75. New investigations at the Middle Stone Age site of Pockenbank Rockshelter, Namibia
76. Characterization of progressive HIV-associated tuberculosis using 2-deoxy-2-[<sup>18</sup>F]fluoro-D-glucose positron emission and computed tomography
77. Proceedings from the NIMH symposium on NeuroAIDS in Africa: neurological and neuropsychiatric complications of HIV
78. Uveitis is predominantly of infectious origin in a high HIV and TB prevalence setting in rural South Africa
79. Plasma efavirenz exposure, sex, and age predict virological response in HIV-infected African children
80. 'If I go with him, I can't talk with other women': Understanding women's resistance to, and acceptance of, men's involvement in maternal and child healthcare in northern Ghana
81. Current South African clinical Practice in Debulking Surgery for Ovarian Cancer
82. Practical Approach to Biobanking in Zimbabwe: Establishment of an Inclusive Stakeholder Framework
83. Child prosociality within HIV-affected contexts: the impact of carer ill-health and orphan status
84. Passing the baton to pharmacists and nurses: New models of antibiotic stewardship for South Africa?
85. Use of the 'accountability for reasonableness' approach to improve fairness in accessing dialysis in a middle-income country
86. Bi treatment with hydralazine/nitrates vs. placebo in Africans admitted with acute HEart Failure (BA-HEF)
87. Sources, transport and deposition of terrestrial organic material: A case study from southwestern Africa
88. Liver fibrosis in treatment-naïve HIV-infected and HIV/HBV co-infected patients: Zambia and Switzerland compared

89. Very low doses of mycobacterium tuberculosis yield diverse host outcomes in common marmosets (*Callithrix jacchus*)
90. Metagenomic-based screening and molecular characterization of cowpea-infecting viruses in Burkina Faso
91. Persisting positron emission tomography lesion activity and *Mycobacterium tuberculosis* mRNA after tuberculosis cure
92. Multidrug-resistant tuberculosis treatment failure detection depends on monitoring interval and microbiological method
93. Toxin A-negative toxin B-positive ribotype 017 *Clostridium difficile* is the dominant strain type in patients with diarrhoea attending tuberculosis hospitals in Cape Town, South Africa
94. Keeping kids in care: virological failure in a paediatric antiretroviral clinic and suggestions for improving treatment outcomes
95. The influence of power and actor relations on priority setting and resource allocation practices at the hospital level in Kenya: a case study
96. Industrial upgrading and development in Lesotho's apparel industry: global value chains, foreign direct investment, and market diversification
97. Cranes and Crops: Investigating Farmer Tolerances toward Crop Damage by Threatened Blue Cranes (*Anthropoides paradiseus*) in the Western Cape, South Africa
98. Rehabilitating mussel beds in Coffee Bay, South Africa: Towards fostering cooperative small-scale fisheries governance and enabling community upliftment
99. HIV-associated malignancies in children
100. Prolonged tuberculosis-associated immune reconstitution inflammatory syndrome: Characteristics and risk factors
101. Information systems for mental health in six low and middle income countries: Cross country situation analysis
102. Community-based psychosocial rehabilitation for schizophrenia service users in the north west province of South Africa: A formative study
103. Imaging features of the brain, cerebral vessels and spine in pediatric tuberculous meningitis with associated hydrocephalus
104. Viral load criteria and threshold optimization to improve HIV incidence assay characteristics
105. The association between HIV, antiretroviral therapy and gestational diabetes mellitus: a systematic review and meta-analysis
106. Non-Interest Income and Bank Efficiency in Ghana: A Two-Stage DEA Bootstrapping Approach
107. Community ecology of the metazoan parasites of snoek *Thyrsites atun* (Euphrasen, 1791) (Perciformes: Gempylidae) off South Africa
108. Determining the correct identity of South African *Marthasterias* (Echinodermata: Asteroidea)
109. Sublittoral seaweed communities on natural and artificial substrata in a high-latitude coral community in South Africa
110. Monitoring the recovery of a previously exploited surf-zone fish community in the St Lucia Marine Reserve, South Africa, using a no-take sanctuary area as a benchmark
111. Spatial variability in branchial basket meristics and morphology of southern African sardine *Sardinops sagax*
112. Cape cormorants decrease, move east and adapt foraging strategies following eastward displacement of their main prey
113. Sharks caught in the KwaZulu-Natal bather protection programme, South Africa. 13. The tiger shark *Galeocerdo cuvier*
114. Exploring the spatial distribution patterns of South African Cape hakes using generalised additive models
115. Late Holocene Artifact Patterns and the Introduction of Herding to Semi-Arid Coastal Namaqualand, South Africa

116. Molecular characterization of *Staphylococcus aureus* isolates from various healthcare institutions in Nairobi, Kenya: A cross sectional study
117. Spiny plants, mammal browsers, and the origin of African savannas
118. Reforestation or conservation? The attributes of old growth grasslands in South Africa
119. Scaling-up services for psychosis, depression and epilepsy in sub-Saharan Africa and South Asia: development and application of a mental health systems planning tool (OneHealth)
120. Woody encroachment over 70 years in South African savannahs: Overgrazing, global change or extinction aftershock?
121. Mid-crustal shear zone development under retrograde conditions: Pressure-temperature-fluid constraints from the Kuckaus Mylonite Zone, Namibia
122. The diagnostic accuracy of pericardial and urinary lipoarabinomannan (LAM) assays in patients with suspected tuberculous pericarditis
123. Forecasting South African macroeconomic variables with a Markov-switching small open-economy dynamic stochastic general equilibrium model
124. Allometric models for height and aboveground biomass of dominant tree species in South African Mistbelt forests
125. Every last drop: the role of spatial planning in enhancing integrated urban water management in the City of Cape Town
126. Record linkage to correct under-ascertainment of cancers in HIV cohorts: The Sinikithemba HIV clinic linkage project
127. Hypoxia and extra-cellular matrix gene expression in adipose tissue associates with reduced insulin sensitivity in black South African women
128. Burden of pneumocystis pneumonia in HIV-infected adults in sub-Saharan Africa: A systematic review and meta-analysis
129. A 10-year cohort analysis of routine paediatric ART data in a rural South African setting
130. 'Britishness', Colonial Governance and Education: St Helenian Children in Colonial Natal in the 1870s
131. Anti-retroviral Therapy Based HIV Prevention Among a Sample of Men Who Have Sex with Men in Cape Town, South Africa: Use of Post-exposure Prophylaxis and Knowledge on Pre-exposure Prophylaxis
132. Data collection challenges experienced while conducting the international alcohol control study (IAC) in Tshwane, South Africa
133. School, Supervision and Adolescent-Sensitive Clinic Care: Combination Social Protection and Reduced Unprotected Sex Among HIV-Positive Adolescents in South Africa
134. GenoType® MTBDRsl assay for resistance to second-line anti-tuberculosis drugs
135. *Didymodon vulcanicus* J.A.Jiménez, Hedd. & Frank Müll. (Pottiaceae), a new species from tropical Africa
136. Schools of public health in low and middle-income countries: An imperative investment for improving the health of populations?
137. Evaluating South Africa's tobacco control policy using a synthetic control method
138. Divergent evolutionary and epidemiological dynamics of cassava mosaic geminiviruses in Madagascar
139. Experiences of social support among women presenting for obstetric fistula repair surgery in Tanzania
140. Relationships between different nutritional anthropometric statuses and health-related fitness of South African primary school children
141. AIDS-related knowledge, stigma and customary beliefs of South African construction workers
142. Philosophy with children as part of the solution to the early literacy education crisis in South Africa
143. Please GO HOME and BUILD Africa: Criminalising immigrants in South Africa
