

Kindly be advised that we are working on the article regarding a protest that had taken place at the offices of the NLC in Pretoria last week, where your organization had staged a protest allegedly accusing the NLC of being corrupt. We understand that your organization had come to the NLC to hand over documents demanding that the NLC provide funding to NPOs affiliated to Sanpou.

This was the second protest your organization had staged at NLC.

It is alleged that your organization is being used by Ground Up, a media organization based in Cape Town to fight its battles against the NLC, how true is this?

Did Ground Up pay Sanpou to fight NLC?

What is the relationship between Sanpou and Ground Up?

Has Sanpou staged a protest at NLC offices in February and last week Thursday?

What is the agenda against the NLC?

Does Sanpou stand to benefit from any funds to be distributed to NPOs affiliated to Sanpou?

Who is using Sanpou to fight NLC?

Has Sanpou demanded donation (sic) from the NLC to stop protesting against the NLC?

What was the donation for?

Please respond to these questions as we are publishing tomorrow morning.

Many thanks,
